Mayor Hart,

As community member and owners of the Black Hawk Tennis Club in Waterloo we are strongly opposed to the mask mandate for all, and the reasoning behind this is because we are a private tennis club. Our patrons have no problem wearing the mask from the car to the tennis court, but tennis is the most safe and socially distancing sport, which the CDC published early during the pandemic. We don't feel it is safe to run on a court and wear a mask especially with the older recreational players, but also our younger competitive and nationally ranked players should not be wearing a mask and competing. We urge you to not mandate the mask. Our business extremely suffered during the pandemic and is still suffering. We can not continue to take these hits from our government shutting us down and not giving the people their freedom to choose what's best for their health. I ask of you that IF you mandate the mask to you assume ALL liability if someone passes out on the court wearing the mask that you told them they had to wear? Do you want to see another large building sit empty when we have to close our doors due to this pandemic because our members know it's not safe to wear a mask and play tennis from 20 feet away from each other.

Please listen to your taxpayers and business owners in your area.

Chris and Tara Sagers

Quentin Hart

Waterloo Mayor

As a RN and Health Educator who has practiced over 43 years feel you should consider not mandating masks. Here's why

I have always promoted healthy life style so if I don't live it I can't promote it. I feel I have encouraged people to make exercise a life time habit.

Your mandate will promote people to stop exercising which will make people unhealthy and therefore be more prone to disease

Before mandating masks I want you to walk fast or run 3-4 miles, bike 6 or 7 miles or more, play tennis 1 ½- 2 hours, walk 18 holes of golf all with a mask on. Then if you still feel it's important and haven't fallen or gotten light headed. You can consider this. Inactivity is more of a threat to diseases.

Playing tennis was considered the safest sport there is during pandemic and you want people to wear masks so they fall when masks slip over their eyes

Please try these activities out before passing this mask mandate. I am 68 years old my husband is 72 and we have done one of these activities everyday and most 2 of these everyday since pandemic started first in Arizona and now Iowa. I feel we don't have comorbidities because of our life style and please don't take away I believe in masks when going to stores but not exercising inside or out.

Dear Mayor,
Wearing masks is the responsible thing to do - and I thank you for your leadership. I am in favor of mandating masks - when we look at other places - we see that wearing a mask has been successful in saving lives. Again, thank you for your leadership and all you do.
Take care,
Jacquelyn Meyer

Subject: Mask mandate

Dear Mayor Hart,

I support and strongly recommend that the Waterloo City Council Implement a mandate that anyone coming into a public building, business, any facility other than a private home, be required to wear a mask.

The sanctions involved and enforcement measures are something the Council would need to work out.

Thank you for your good leadership in our city !!!!

Sincerely, Father George Karnik

Subject: Masks

Dear Mayor Hart,
Please support the mandatory wearing of masks in public in Waterloo. We can not rid ourselves of this virus without having people wear masks in public.
Thank you.
